Mr Neil Laurie  
The Clerk of the Parliament  
CENTRAL DOCUMENT EXCHANGE M29

Dear Mr Laurie

Thank you for your letter of 19 March 2004 regarding petitions received by the Queensland Legislative Assembly from both Ms Sharyn Masters concerning the Gold Coast Harbour Vision 2020 Project, and Mr Malcolm Graham concerning the Tripcony/Hibiscus Caravan Park Site at Caloundra.

### **Gold Coast Harbour Vision 2020 Project**

I advise the Gold Coast Harbour Vision 2020 Project – Report No. 1 was prepared in early 2002 by the Gold Coast City Council as an initiative to address the issues associated with rapid population growth and the necessity to provide economic and social infrastructure to support such growth. The Gold Coast Harbour Vision 2020 Project – Report No. 1 provided for public discussion purposes several possible broad based options and concepts to address the future management of the area in a coordinated, balanced and environmentally sustainable manner.

The report was subsequently reviewed by the Harbour Vision 2020 Community Advisory Committee (CAC), which is a body consisting of 33 community representatives and chaired by the Mayor of the Gold Coast City Council. Accordingly, many of the broad options presented in the initial report will not be implemented, as they were subsequently dismissed by the CAC through its review process and this dismissal was highlighted in Council's most recently produced Gold Coast Harbour Study – Council Report No. 22 (the Report) which summarised the recommendations of the CAC.

At Council's Meeting of 8 August 2003, Council gave consideration to the Report and resolved that no private or commercial development on public land will be considered on the Spit or any other Broadwater foreshore area as part of this project (with the exception of development that is in accordance with the existing planning scheme, which includes land on the Spit west of Seaworld Drive between the Seaworld Nara Resort and the Southport Yacht Club). The Council has further directed its Chief Executive Officer to prepare a holistic plan (to be known as the Southern Broadwater Local Area Plan) that has regard to the findings of this study and presents a coordinated approach to conservation, development and management in the area.

Under Schedule 1 of the *Integrated Planning Act 1997* (IPA), the preparation of a Local Area Plan would constitute an amendment to the planning scheme, and would therefore require public consultation for a period of not less than 30 business days. The Council is then required to consider every properly made submission and make representation back to each principal submitter.

I therefore encourage Ms Masters and any other concerned members of the community to await Council's preparation and display of the Southern Broadwater Local Area Plan, and make a submission should they still hold concerns over the proposed development of this area. Officers of the Council have advised the Southern Broadwater Local Area Plan being commenced in the 2004-05 period with a possibility of taking at least 12 months to complete.

Should the petitioners have any further enquiries in relation to Council's proposed planning strategy for the Spit and Broadwater foreshore area, or enquiries relating to the Gold Coast Harbour Vision 2020 Project, they may consider contacting the Gold Coast City Council on telephone (07) 5582 8322.

### **Tripcony Hibiscus Caravan Park Site**

I advise that as Minister for Local Government, Planning and Women, I have a responsibility under the IPA to consider whether any interests of economic or environmental significance to the State are adversely affected by local government planning schemes. During the first State interest review of the Caloundra City Plan, the then Department of Natural Resources and Mines provided specific advice regarding its interest in the Tripcony/Hibiscus caravan park site. The then Minister for Local Government and Planning subsequently provided a condition on Caloundra City Plan to address the concerns raised.

I understand the provisions included in Caloundra City Council's publicly notified Plan regarding the Tripcony/Hibiscus Caravan Park site, reflect a previously agreed position, which was reached through a collaborative process between Council, the then Department of State Development and the then Department of Natural Resources and Mines. The provisions are also consistent with the current development requirements in Council's existing planning scheme. The provisions effectively maintain the status quo and allow the future of the site to be determined through a further collaborative planning process.

You may be aware that earlier this year Caloundra City Council resubmitted its draft City Plan to me for final consideration of State interests prior to Council adoption. As part of this process the Department of Natural Resources, Mines, and Energy (DNRME) provided comments to the Department of Local Government, Planning, Sport and Recreation (DLGPSR) in relation to the Tripcony-Hibiscus Caravan Park site.

I have asked DLGPSR to give your concerns as outlined within your petition, in addition to DNRME's comments, detailed consideration and to provide more advice to me in regard to this matter before I give approval to Council to adopt its draft planning scheme.

Furthermore, as DNRME own the site, the issue of the future land status of the Tripcony/Hibiscus caravan park is the responsibility of my Cabinet colleague the Honourable Stephen Robertson MP, Minister for Natural Resources, Mines and Energy. I have therefore taken the opportunity to forward your letter together with the petition you attached to his office for a reply.

I hope this information is of assistance.

Yours sincerely

**Desley Boyle MP**  
**Minister for Local Government and Planning**  
**Minister for Women**

MIN 51614.04 - TPA23052

Dr Kay Pearse  
Senior Policy Advisor  
Office of the Minister for Natural Resources, Mines and Energy  
CENTRAL DOCUMENT EXCHANGE M18

Dear Dr Pearse

I refer to the attached correspondence dated 19 March 2004, from Mr Neil Laurie, Clerk of the Parliament, regarding a petition received by the Queensland Legislative Assembly from Mr Malcolm Graham concerning the Tripcony/Hibiscus Caravan Park Site at Caloundra.

As the matter of the future development of the Tripcony/Hibiscus caravan park site primarily falls within your Minister's portfolio responsibilities given the Department of Natural Resources, Mines and Energy is the land owner, I have forwarded the petition to you for your Minister's consideration and direct response.

I have also attached a copy of the response from the Honourable Desley Boyle MP, Minister for Local Government, Planning and Women to Mr Laurie dealing with some of the issues raised in the letter.

Yours sincerely

**Charis Mullen**  
**Senior Policy Advisor**
