Dear Mr Small

**Re: Petition about installation of traffic signals at the intersection of  
Cleveland-Redland Bay Road and German Church Road**

Thank you for your petition which was tabled in Parliament (petition number 310-04), about the installation of traffic signals at the intersection of Cleveland-Redland Bay Road and German Church Road, Redland Bay.

The Department of Main Roads has recently completed improvement works at this intersection, which included construction of channelisation and widening of the roadway, to improve safety.

In addition, Main Roads made a submission on 28 November 2003 to the federal government under the Black Spot Program, to obtain funding for further improvements to the intersection. This was in the most recent round of funding applications.

The submission included the provision of traffic signals. Unfortunately, this application was not successful as the Benefit Cost Ratio (BCR) was less than two. Project proposals for Black Spot treatment must be able to demonstrate a BCR of at least two.

Main Roads will continue to monitor the performance of this intersection. Signalisation will be programmed when federal funding is available.

I trust this information clarifies the situation. If you require further information, please contact Mr Ross Blinco, Main Roads' Manager (Traffic Operations) at Metropolitan District, on 3834 8264. Mr Blinco will be pleased to assist.

Yours sincerely

**PAUL LUCAS MP**  
**Minister for Transport and Main Roads**
